Our mission is to expand our reach so that engineering and science students in every part of India and the world will have access to IIT Bombay’s courseware.
CDEEP has great potential to be a leader in educational technology research. It is also well poised to fulfill the need for academic programmes in the area of e-learning, by offering courses such as instructional design and multimedia.

CDEEP has played a very important role in my teaching activities. It has given a permanence to the efforts that we, as faculty, put into instruction and academic interaction. It allows broader dissemination and use of the courses that we create. Prof. Kannan Moudgalya and Prof. R. K. Shevgaonkar deserve rich compliments for their efforts to set this up, along with all the staff that work with CDEEP.

CDEEP Courses are useful to improve domain knowledge. As I am working in embedded system domain. I am using this knowledge to become embedded design engineer.

-----Mr. Ameya Kotawdekar

CDEEP courses are very helpful. I get the chance to take the lectures of some of the very eminent profs by sitting at home through these CDEEP lecture series. For a professional like me it is very hard to take direct courses from IIT unless and otherwise institution permits.

----- Mr. Sourav Mukhopadhyay

All courses are very good and are helpful even for M Tech students. Concepts are very good. All concepts are explained very clearly. CDEEP makes IIT knowledge accessible.

----- Mr. Prabhakaran Selvam
CDEEP offers IIT Bombay live and recorded courses to students, teachers, individuals from any other college, institute or even working professionals. CDEEP offers its courses to just view it for free or get certified by paying nominal fee for courses; if required. These modes to register for courses & participate in CDEEP distance education programme, which are as follows:

1) Live Classroom
This is the basic free service available for all institutes that are recipients of live courses.

It has the following features:
> The institute can receive live lectures from IIT Bombay.
> Participants can interact live with the IIT Bombay instructors during the lectures.
> Recording of lectures is not permitted in this mode.
> View live videos of Current semester IITB courses offered through CDEEP

2) Extended Live Classroom
This package extends the Live Classroom and is available only for CDEEP’s Remote Centres.

It has the following features:
> The Remote Centre can receive live lectures from IIT Bombay.
> The participants can interact live with IIT Bombay instructors during the lectures.
> The Remote Centre can record the lectures and re-use them for internal purposes.
> The Remote Centre will get a certificate that it participated in the Extended Live Classroom.

3) Offline Classroom
In this package, students make use of recorded courses made available through CDEEP's Access Courses facility. This mode is available only for CDEEP’s Remote Centers.

It has the following features:
> Students at the Remote Centre are expected to see the lectures on CDEEP's Access Courses link. A regular schedule for students would be to see three hours of lectures per week.
> It is expected that the college will have one hour of live interaction per week, at a mutually decided time, to answer the doubts arising out of the three hour lectures seen in that week.
> The Remote Centre will get a certificate stating that it participated in the Offline Classroom.

4) Credit
In this mode, individual participants register for course(s) at a Remote Centre (RC). Participants attend live IIT Bombay classes transmitted to the RCs. The following types of registrations are possible with corresponding fee:

i) Registration for certification of registered participants by the RC
ii) Registration for grading and certification of registered participants by CDEEP (IITB) for archived as well as current semester courses

All students enrolled for a course at our Remote Centres will be eligible to participate in the Learning Management System (LMS) for the course.
The fee structure per course is given below.
(It is excluding. 18% GST is applicable on fee given below)
