Chief Guest

Mr. Subramanam Ramadorai
Vice Chairman, Tata Consultancy Services

Mr. S. Ramadorai graduated in Physics from Delhi University. He holds a Bachelor of Engineering degree in Electronics and Telecommunications from the Institute of Science, Bangalore, and a Master's degree in Computer Science from the University of California, Los Angeles. In 1993, Mr. Ramadorai attended the Sloan School of Management's highly acclaimed Senior Executive Development Programme.

Starting his career in Tata Consultancy Services (TCS) as a trainee engineer, in 1972, Mr. Ramadorai rose to become its CEO in 1996 – when the company's revenues were at \$155 million – and has since led the company through some of its most exciting phases, including its going public in 2004. In October 2009, Mr. Ramadorai stepped down as CEO – leaving a \$6 billion global IT services company to his successor – while taking over the mantle of Vice Chairmanship of the company. Today, the company's revenues stand at US \$11.06 billion for the year ended 31 March 2013, with an employee base of over 276,000 – the world's best trained IT consultants in 44 countries.

Mr. Ramadorai is also the Chairman of other Tata companies, viz., Tata Elxsi Ltd., Tata Technologies Ltd., and CMC Ltd. He is on the Boards of a number of non-Tata companies and educational institutions, including Hindustan Unilever Ltd., BSE Ltd., and the MIT Sloan School of Management (EMSAB).

Mr. Ramadorai was recently appointed as the Chairman of National Skill Development Corporation (NSDC), the public-private partnership arm of the Government of India for creating large, for-profit vocational institutions. This is not his first foray into public service. In 2011, The Government of India had appointed him as the Adviser to the Prime Minister in the National Council on Skill Development, in the rank of a Cabinet Minister. Recently, the Council was subsumed under the NSDA.

Mr. Ramadorai is a well-recognised global leader and technocrat who has participated in the Indian IT journey from a mere idea in 1960's to a mature industry today. He captured this exciting journey in a wonderfully personalised book entitled: "The TCS Story ... and Beyond" which was published in 2011 and remained on top of the charts for several months.

In April 2009, he was awarded the CBE (Commander of the Order of the British Empire) by Her Majesty Queen Elizabeth II for his contribution to the Indo-British economic relations. He is also a recipient of many national and international honours, honorary doctorates and awards. In recognition of his commitment and dedication to the IT industry, Mr. Ramadorai was awarded the Padma Bhushan in January 2006 by the President of India.
